

## ARE YOU VISIBLE ONLINE TO LOCAL AUDIENCES?

If local audiences are the mainstay of your business, you need to be showing up in the first page of search engines for local listings

Ewing Enterprise SEO: Gets you found online in local searches

### **Be found online by your local audience**

When local users search online for your product or services, does your name figure in the top 10? If not, you may be losing out on thousands of dollars worth of business every month. As a local business owner, it is more important for you to be visible online to local users rather than ranking well in international listings.

### **More visibility-more clients!**

Being highly visible on local listings means more clients stepping into your physical location (in case it is a store, shop, clinic, etc.) or local people calling for services (in case it offers services like plumbing, gardening, decorating, etc.), ultimately resulting in more profitability for you.

### **Yellow pages are just not enough**

You may consider that being listed on the yellow pages and business directories should be enough to get local business. Not anymore. Recent studies indicate that people, especially Internet users, are drifting away from printed yellow pages and business directories and using the Internet to find products, services and updates among other things. According to a recent study, approximately 90% of Internet-users research online before purchasing anything locally -this trend will only increase in the future considering the explosion of internet access on mobile phones and other devices.

### **Local SEO: an elegant and economical solution**

Local Search Engine Optimization (LSEO) is the perfect SEO service for small business owners like you who wish to reap the benefits of the Internet without paying an arm and a leg. (You may actually end up spending less on it than the listing cost of printed yellow pages and directories!) Local SEO is much more than plain vanilla SEO. Its exciting new SEO techniques actually enhance your presence in local listings.

### **The Benefits of Local SEO**

In essence, Local SEO gets you found when someone is looking for something that you offer in your locality resulting in:

- + More foot traffic to your physical location
- + More calls from potential clients
- + More emails from potential clients

## About Ewing Enterprise, the company

### About Ewing Enterprise

Ewing Enterprise is proud of being a global, quality driven information technology company and a Microsoft Certified Gold partner. As well as software and RIA development we offer services in the areas of search engine marketing, E-Learning, E-Marketing, social media marketing services, and enterprise web design.

Ewing Enterprise has its headquarters in Dallas, Texas and a roster of Fortune 500 companies as clients including AT&T, Mary Kay, University of North Texas, Verizon, Captain Limousines and I Am Woman World. Today we have shares of stock and satellite offices in Houston, Addison, Seattle, and we are still growing.

### The Ewing Enterprise Emarketing Team

The Ewing Enterprise Emarketing division is made up of experts that supervise individual teams comprised of 2-10 members each. Each team handles a specific marketing activity like PPC, link building, search engine optimization or content development. Though they are independent, teams work in close collaboration if the project requires it. The work is complemented by a design and development team that addresses website design, ecommerce functionality, and content management systems.
